FOR VICE PRESIDENT. WILLIAM A. GRAHAM. OF MORTH CAROLINA.

# Electors,

RITCHA HARRIS, of Corester ISAAC P. HAZARD, of Howport. AMOR D. BMITH, of Providence, CMARLES ALLEN, of Marth Eingelown,

III The Providence Temperance Advocate of last week contain bitter articles in regard to the Mesers. Newton, of this town, seletive to their generous net of giving away fiquor to the poor, on the last day before that iniquitous Star-chamber menetrosity, the so-called Maine Law, went into operation. We have already freely expressed our opinion in regard to this act of these gentlemen; and we have no cause to change it, one jot or tittle. This law was made expressly to operate upon poor people-not on the rich or those who are in moderate circumstances in life. Every one knows this perfectly well, and none are more conscious of it than the Messrs. Newton, -- and we repeat again that these gentlemen, with the characteristic liberality which has ever marked their conduct in this community, where they have been well and thoroughly known, were determined that poor people should have an opportunity to provide for their wants, in case of sickness, &c., and we repeat again that this act of theirs was a noble one, and worthy of praise from all whose minds are not entirely charged by the film of fauaticum.

The stories which the Advocate gives utterance to in regard to persons being made beastly drank by this giving away of liquor, on that day, are utterly untrue, and whoever so informed the editor has imposed upon him; they are the charges of unprincipled or violent Maine Law men, who pay no respect its truth when they promutgate such state monta Wa heard some of these stories on the afternoon of the map, and carefully observed the scenes around the Mesers. Newton's store, and we positively assert that they are without foundation. We enquired of the watchmen, and they informed us that the streets were entirely still Saturday night,-and that there was less noise or that night (and there is usually more disturbance that night than any other in the week) than there had been for the last two years.

All these sickly appeals of the Advocate and many fanatical friends of this infamous Law, are movely mawkish subterfuged which are resorted to for the purpose of exciting a false and contemptible sympathy among these who are easily moved, with the hope of creating a talec and unnatural furor in lavor of the Law. We are as warm a friend to the Temperance cause as the editor of the Advocate; but we are not lanaucal, and we do not cherish a worse than femining sentimentatily in regard to this subject. We believe this law to be unconstitutional, contrary to the grand and fundamental principles of Magna Charte, and subsversive of certain natural right of man, which no legislative body and no power on earth can infringe, if any regard is paid to the first principles of law or instice. Wild fematicism may for a time trample upon natural rights, but the true majesty of true law will ultimately prevail and the aggressors must then pay the penalty of their folly, in obedience to the stern requirements of unerring justice. Mark our word, the result of the Maine Law will be to put the true Temperance cause back where it stood thirty years ago.

We do not know of one lawyer in Rhode Island who believes this Law to be constitutional, and who as not confident that it will be declared unconstitutional by the Supreme Court, as soon as a case under it shall be carried to that Tribunal. Oh, yes, there is one solitary exception,—the Hos. Nathan Porter, the peculiar Senator, from Cranston, who was admitted to the Bar about two years age.

Among the distinguished visitor in townswe notice Judge Foreyth, of New York, who has taken a house here for the season.

The young men of Cincinnatti have adopted a beautifully written address of condolence to the widow of the great statesman, Clay, and ordered it to be appropriately decerated and sent to her.

The funeral of the late Bishop Henehaw will take place this morning, at 11 o'clock, at Grace Cherch, Providence.

The Scaole has perced the resebutlon of the House to adjourn, substitu-ting the list for the 16th of August the House will probably concur, and the session of Congress will be brought to a close, without much work having been performed which will be of any benefit to the country, unless the members immediately commence operations and continue in good extract to perform their duties, and abandon Presidential speech-making.

The Colonization Herald, contains list of three hundred and thirty-five persons who have been emancipated and emigrated to Liberia since February, 1851. The number of owners who emancipated these slaves, is about forty, of whom four are clergymen.

The people of Fall River have sub sembed \$1000 for the relief of the family of Mr. Manchester, who was shot in the discharge of his duty. One gentleman has given them the rent of a house ٠ for a year.

In regard to the article which we published a few days ago, relative to the subscription papers for Hops, &c., at the different hotele, we did not intend to convey the idea that these who did not subscribe, would not be welcome to the hotels to visit there friends, enjoy the music, &c. We simply intended to my that such papers had been opened, for any to sign who felt disposed,-and all would then feel no delicacy in roine at any and all times, to the Hotels wacture, and irlense incressor not. Of course, the article was not intended to embarase any who did not wish to visit the Hope, and simply go to the Hotels occasionly to see their friends,

We have a number of communications, both prose and poetry, on our desk which we shall publish as soon as we can possibly make room for them; our correspondents must exercise patience, for it is a cardinal virtue, canecially in these hot days.

to-We trust that the following request from Major Sherman, commanding at Fort Adams, will be strictly complied with ; it is so reasonable that certainly every gentleman will strictly observe

Fort Adams, July 23, 1852.
